

■ Creating the system for business startup

▪ About EHLE INSTITUTE

There are 1,600 international students studying at EHLE INSTITUTE. Some of them want to be entrepreneurs. So we have been thinking about creating a system. Some of our graduates have their parents doing businesses or have jobs in their home countries. To start a business, they enter EHLE INSTITUTE, and after graduation they start doing businesses. We already have such students. In other cases, some students want to start businesses directly in Japan. Such cases are rare for Japanese students, but foreign students are very entrepreneurial. We are considering new departments to nurture these entrepreneurs. There are about 6 Professional Training Colleges and Japanese Schools in South area of Osaka. We believe that there are enough potentials for them to join this network as schools that educate international students.

■ Practical activities

▪ EHLE INSTITUTE's network

EHLE INSTITUTE has a strong network with Vietnamese universities. In particular, we signed MOUs with top 10 national universities in Vietnam such as Foreign Trade University in Hanoi, Hanoi University, University of Social Sciences and Humanities in Ho Chi Minh City, Ho Chi Minh City University of Education. These universities send international students to EHLE INSTITUTE. In addition, we are promoting the annual business event called Global Talent & Business Meetup. This event was held in 2017 in Ho Chi Minh, in 2018 in Hanoi, and in 2019 in Da Nang. These events were attended by students from the top 5 universities in each city, 50 companies from Japan, 45 local Japanese companies, and 25 local companies in Vietnam. Students each prepared their own business cards and interacted with companies. Through these events, we have networked with top 20 universities in Vietnam. We would like to attract excellent students from these universities to Osaka and Kansai region to develop their entrepreneurship.
