

■WeWork Awards at pitch contests

▪ What is *WeWork Award*?

WeWork awards are established at local startup pitch contests held in various locations and awarded to the winning companies. The award include the right to use a hot desk at a WeWork location of their choice from the selected list for a limited time (3 months to 6 months). The program has been offered in Osaka and Nagoya so far.

▪ Our aim

As a company that enables people to create new business and innovation through interaction and encounters, WeWork is committed to supporting Japan's passionate and promising startups. By offering a free WeWork award, we aim to bring together WeWork community members and startups to help them further expand their businesses and enrich the WeWork community.

■Community type work space

▪ Supporting the expansion and relocation of rapidly growing startups

"WeWork offers a lot of flexibility in office design, with room sizes naturally varying within a location, sometimes combining two rooms into one, and sometimes contracting for smaller rooms."
Daichi Harada (Recruiting), Bit Key Inc.

▪ WeWork staff to support the business

"WeWork's staff often introduce your company to other member companies in the same working space. Also, they gives us the opportunity to introduce ourselves to each other. I'm very grateful for this because it enables us to expand the connection between other companies according to our needs."
Yujiro Takei, Director, Mars Flag Corporation
