

# NIPPON TELEGRAPH AND TELEPHONE WEST CORPORATION

Support the practice of design thinking and co-creation to the companies regardless of business scale, industry, or business type.

## ■ Initiatives for startups

With the mission of "connecting" people to people and people to things, we want to help change companies who take on social issues by staying close to people in an era when one company cannot solve them. To that end, we are implementing a program to support start-up companies in order to create a new society where people can live with peace of mind and take on challenges by utilizing NTT West's "members, assets, and funds."

## ■ Implementation of Startup Factory

A program that aims to solve social issues by working with venture companies and companies with new technologies and products. Held in 2015 and 2017.

## ■ Seconded to a start-up company

From 2018, we will carry out NTT West member to start-up companies in order to develop human resources who will generate innovation.

## ■ Providing a space for "Design thinking, co-creation"

We have set up LINKS PARK, an environment that provides cafes, workspaces, and meeting spaces where visitors can interact with each other, and evolves the inspiration that comes from surprises and relaxation into innovation.
